Table of Contents: Volume 2 (1992)

Number 1

Structure of Aura and Co-occurrence Matrices for the Gibbs Texture Model ..... *Rosalind W. Picard and Ibrahim M. Elfadel*

Mission Parameters Derived from Optical Flow ..... *V.N. Dvornychenko, M.S. Kong, and S.M. Soria*

Local Decomposition of Gray-Scale Morphological Templates ..... *Samer Takriti and Paul Gader*

Vector-Space Solution for a Morphological Shape-Decomposition Problem ..... *Tapas Kanungo and Robert Haralick*

Manipulation of Multivalued Images in Image Algebra ..... *P.W. Hawkes*

Number 2/3

Special Issue: Nonlinear Image Processing
Guest Editors: Edward R. Dougherty and Jaakko Astola

Introduction .....

Statistical Properties, Fixed Points, and Decomposition with WMMR Filters ..... *Harold Longbotham and David Eberly*

Asymptotic Behavior of Morphological Filters ..... *Lasse Koskinen and Jaakko Astola*

Nonlinear Filtering Structure for Image Smoothing in Mixed-Noise Environments ..... *Robert L. Stevenson and Susan M. Schweizer*

Root-Signal Sets of Morphological Filters and Their Use in Variable-Length BTC Image Coding ..... *Qiaofei Wang, Moncef Gabbouj, and Yrjö Neuvo*

Unification of Nonlinear Filtering in the Context of Binary Logical Calculus, Part I: Binary Filters ..... *Edward R. Dougherty and Robert M. Haralick*

Unification of Nonlinear Filtering in the Context of Binary Logical Calculus, Part II: Gray-Scale Filters ..... *Edward R. Dougherty*

Morphological Analysis of Discrete Random Shapes ..... *John Goutsias*

Inverse Problems for Granulometries by Erosion ..... *Juliette Mattioli and Michael Schmitt*

Design of a Multitask Neurovision Processor ..... *George K. Knopf and Madan M. Gupta*

Wilson-Cowan Neural-Network Model in Image Processing ..... *Kari Mantere, Jussi Parkkinen, Timo Jaaskelainen, and Madan M. Gupta*

Clustering Properties of Hierarchical Self-Organizing Maps ..... *Jouko Lampinen and Erkki Oja*

Number 4

Quantum Holography and Neurocomputer Architectures ..... *Walter Schempp*

Shape from Texture for Smooth Curved Surfaces in Perspective Projection ..... *Jonas Gårding*

Morphological Methods for Detection and Classification of Edges in Range Images ..... *Raghu Krishnapuram and Sundeep Gupta*
